### Attractive Features of the Plan:

#### Opportunity for growth of your savings:

Every premium paid towards the plan will be invested in one of the internal investment funds of EFU Life.

It is completely your decision to choose the internal fund based on your investment objectives. These Funds are managed by investment experts, who adjust the mix based on underlying economic conditions and better investment opportunities.

You can select from the following unit funds mentioned below at the inception of the policy:

- **EFU Managed Growth Fund** - An investment fund with a balanced investment strategy. It aims to achieve reasonable capital growth and steady returns with investment in government securities, carefully selected blue chip equities and other fixed income instruments and cash.
- **EFU Guaranteed Growth Fund** - An investment fund providing steady returns with a guarantee that the bid price of the fund will never fall. It aims to achieve stable growth through investment in short term debt securities.

### Unit Allocation Percentage

The proportion of premium for investment in units varies by policy year and is as follows:

Policy Year	Unit Allocation (%)
1	40%
2	80%
3 to 4	100%
5 to 10	103%
11 to 20	105%
21 and onwards	110%

### Fund Acceleration Premium (FAP)

If you have surplus cash available at any point of time during the plan term, it can be invested in the plan to enhance your cash values. These additional payments in the plan are called Fund Acceleration Premium payments. You can make these payments at any time while the policy is in force. The minimum FAP payment is Rs. 24,000.

100% of FAP payments are allocated to purchase units in the selected fund.

### Access to your Savings:

The plan provides complete access to accumulated fund value during the policy term. Total units accumulated can be withdrawn after the second year's regular premium payment.

A facility for partial withdrawals is also available subject to Rs.20,000 remaining in the fund.

Please note that in case of surrender in early policy years may result in low cash values.

### Benefits under this Plan

#### Death Benefit:

In the unfortunate event of death of the policy holder, this plan provides Continuation benefit by which you can secure your family's future from the financial losses even in your absence.

On death of life assured prior to the maturity of plan, the plan ensures that your child's future remains secure by its Continuation Benefit. This is built into the plan and ensures that all remaining future premiums are paid by EFU Life following the death of the life assured until the Plan's maturity date. This means that the funds you had originally planned for your child's education or marriage will still be available for your children.

#### Maturity Benefit:

At the end of the Policy Term, the maturity benefit payable will be the Cash Value applicable to the Regular Plan Premium plus Cash Value applicable to FAP payment, if any.

#### Maturity Bonus

For continuously infoced policies, the plan provides valuable maturity bonuses at the end of the plan's term to boost the fund accumulated. The bonus is allocated, as a percentage of the average Basic Plan premiums paid till maturity. The extra units will be allocated at maturity, depending on the maturity year, as menti oned in the table below:

Maturity Year	Unit Allocation % as average annual premium paid till maturity
11 - 15	10%
16 - 20	20%
21 - 25	50%

### Indexation Benefit:

Under this option, the regular premium will increase every year by 5% of the prior year's premium till the age of 55 years, without any medical evidence.
