Attractive Features of the Plan:

Opportunity for growth of your savings:

Every premium paid towards the plan will be invested in one of the internal investment funds of EFU Life.

It is completely your decision to choose the internal fund based on your investment objectives. These Funds are managed by investment experts, who adjust the investment mix based on underlying economic conditions and better investment opportunities.

You can select from the following unit funds mentioned below at policy inception:

- EFU Managed Growth Fund - An investment fund with a balanced investment strategy. It aims to achieve reasonable capital growth and steady returns with investment in government securities, carefully selected blue chip equities and other fixed income instruments and cash.
- EFU Guaranteed Growth Fund - An investment fund providing steady returns with a guarantee that the bid price of the fund will never fall. It aims to achieve stable growth through investment in short term debt securities.

Unit Allocation Percentage

The proportion of premium for investment in units varies by policy year and is as follows:

Policy Year	Unit Allocation (%)
1	40%
2	80%
3 to 4	100%
5 to 10	103%
11 to 20	105%
21 and onwards	110%

Sum Assured:

This is the amount payable on the unfortunate event of death of the policy holder/life assured. This is equal to the Regular Basic Plan Premium times the protection multiple selected by the policy holder. The Protection Multiple is subject to limits dependent on the age at commencement.

Refer to the table below for further details:

Age	Protection Multiple
18 to 35	5 to 75
36 to 40	5 to 50
41 to 49	5 to 35
50 to 60	5 to (70-age)
61 to 65	5

Access to your Savings:

The plan provides complete access to accumulated fund value during the policy term. Total units accumulated can be withdrawn after the second year's regular premium payment. A facility for partial withdrawals is also available subject to Rs. 20,000 remaining in the fund.

Please note that in case of surrender in early policy years may result in low cash values.

Fund Acceleration Premium (FAP)

If you have surplus cash available at any point of time during the plan term, it can be invested in the plan to enhance your cash values. These additional payments in the plan are called Fund Acceleration Premium payments. You can make these payments at any time while the policy is in force. The minimum FAP payment is Rs. 24,000.

100% of FAP payments are allocated to purchase units in the selected fund.

Maturity Bonus

The plan provides valuable maturity bonuses at the end of the plan's term to boost the fund accumulated. The bonus is allocated, as a percentage of the average Basic Plan premiums paid.

The extra units will be allocated at maturity, depending on the maturity year, as mentioned in the table below:

Maturity Year	Unit Allocation % as average annual premium paid till maturity
11 - 15	10%
16 - 20	20%
21 - 25	50%

Benefits under this Plan

Death Benefit:

The moment you start saving with this Plan, you will have a guaranteed level of life insurance protection. After the death of the policy holder, the beneficiary will be receiving:

Greater of the Sum Assured of the Main Plan or the Cash Value of the units applicable to the Regular Basic Plan premium.

Plus

Cash Value of the units applicable to Fund Acceleration Premium (FAP).
