

February 2018

Market Review

Debt Market Review:

- Benchmark lending rate 6m KIBOR increased 0.03% to 6.46% over the month. The latest weighted average yield for T-Bills stand at 6.23% for 3m paper, whereas bids for 6m and 12m were rejected and not received respectively.
- CPI for the outgoing month was 3.8% compared to 4.4% for the previous month.

Equity Market Review:

- KSE-100 Index decreased by 1.74% over the month to end at 43,272.40 points. Average daily volume decreased to 74.87m shares traded against 110.65m last month. Foreign selling of about US\$32.05m (net) was witnessed over the month.
- The stock market declined over the month mainly on account of global sell off due to anticipation of Fed interest rate hikes. Furthermore, ambiguity over inclusion of Pakistan in the FATF grey list caused confusion for investors decreasing trading activity.

Currency & Commodity Review:

- The USD remained stable over the month, closing at 112.05 in the open market.
- Average crude prices (Brent and WTI) decreased approximately 4.09% from the previous month to end at US\$63.73 per barrel.
